How to Use Template

Create your design in the box. The box and this layer are locked, so you won't be able to edit them.

You can create your design on the layer below it titled "Your Design."

If you would like to base your design on a common quilt grid, there are some templates on separate layers. Simply click the eyeball icon next to each layer to make visible. The grid lines are locked, but you can turn them on and off by clicking Ctrl/Command + ;.
